- SoulSolé has no competitive product in the retail space.
- SoulSolé is a wellness product that solves a need in the global consumers current head space.

This powerful solvent was and still is, the most valuable resource on earth and is the only element that exists in 3 states (liquid, solid and gas). Millenniums ago water was pure. It was quite simply, our life source. Water was unaffected by the negative impact that mankind, technology and industry have had on the environment. It remains essential to our existence, yet, we have slowly removed all the essential goodness from it. As consumers we are bombarded with instructions to drink 6 – 8 glasses of water a day. What if those 6 – 8 glasses are actually chemical concoctions, scientifically constructed to look appetising, taste refreshing and promise good health, are the complete opposite? Would we still gulp it with gusto? We all do.

There are regular outcries about the quality of drinking water across the globe; features exposing irregularities about water contents are broadcast by respected journalists and magazine channels; epidemic scares and warnings on labels are common in many supposed 1st world cities. So, how can we be sure that what we are sold as “natural and pure” water is in fact “natural and pure”?

We can't. That's a fact. Tap water, mineral water, spring water, all water would have to undergo a “miracle” process in order for it to regain it's original properties, to be cleansed from all impurities and negative influences (**as water has the most powerful photographic memory**), to be re-charged with the **84 elements** that our bodies need from this life source. A process that would rely on salt crystals from unspoilt areas such as the Himalayan Mountains.

In fact, this would no longer be water. . . this would be a **Tonic for the Body and Soul.**

This has become **SoulSolé** (Soul Sol-ay).

Solé (so-lay), is the primordial soup of life, and the most flexible physical representation of **pure solar and light energy**. When **water** and **crystal salt** come together they create this new dimension. The word sole, which is derived from the Latin word "sol", which means sun. Sole is the liquid materialization of sunlight. Sole means fluid sunlight or fluid light energy. When water combines with salt the positive ions of the salt surround the negative ions of the water molecules and the negative ions of the salt surround the positive ions of the water molecules. The ions become hydrolyzed. In this process the geometrical structure of the salt and the water is changed and a totally new structure is formed. Water is no longer water and salt is not salt anymore.

“What man has done, man can also undo”, believes Robyn MacLennan founder of Body and Soul Health Centre. Her passion for wellness saw her embark on a journey of scientific discovery that would lead to the creation of this very tonic, or “**structured water**” as she describes it. And so, after research, investigation and partnerships with scientists, experts, dieticians and doctors, SoulSolé has been born. Water this good for you will **revive** your energy levels; provide **effective hydration** and give you **renewed health** and **wellbeing**. **Structured water is alive**. It contains only **pure memories**, and as SoulSolé is **electrically charged**, it allows oxygen to flow through it and amends ones pH levels. SoulSolé is not only a tonic for mankind as tests have shown that plants require 20% less watering than when mineral or tap water is used.

SoulSolé is unlike any other on the retail or pharmaceutical shelves today.

SoulSolé is the most pure and perfect structured cell water you can find in ready to drink form!

SoulSolé is the health water of choice for homeopaths, sportsmen, diabetics, scholars, paramedics, and the list is growing.

For the price of a bottle of water R25.00 per 750ml glass bottle and R8.00 per 500ml plastic squeeze bottle SoulSolé is the logical refreshment for a healthier life.
