

Solé Water™

....it's not just water!

The instant benefits of structured Solé Water™

Thick coil like cells

Blood test 20 min after hydration with structured water, notice the cell separation.

Pure, natural, unpolluted, freshly condensing dew is naturally structured water. Research reveals that water has a liquid crystalline form. Although the molecules remain mobile in liquid crystalline water, they move together, like a school of fish swimming in the sea. **This is structured water** – also referred to as organized water, prepared water, hexagonal water, micro-clustered water (for perfect hydration) and liquid crystalline water. (Reference "Dancing with water" by MJ Pangman and Melanie Evans.) Since most of us have access to water of varying quality produced by commercial water producers or municipal services, we need to urgently consider those options that are able to return tap water to its original, hydrating, life-giving state.

Since the human body is approximately 70% water, when cleansed and energised with pure internal water, **revitalisation** of good body chemistry naturally WILL occur. Provide your body with the highest quality water (that is unpolluted, energized and life giving) and it is absorbed immediately: every cell soon becomes correctly hydrated (as demonstrated in above photograph.)

Chronic **dehydration** has been shown to cause a wide range of serious health conditions while proper hydration with pure, dew-like water has been documented to reverse a variety of illnesses - at very little cost.

Solé Water™ is structured water which is based on an ancient unique life force recipe which was, until now, only ever produced domestically by a few progressive individuals.

Translated, Solé (Sol-ay) means **LIQUID ENERGY**. The 'Sol' is the secret solution added to our purified water and is by definition the 'perfect combination of water and salt'. The 'e' stands for energy.

The secret solution (pure Solé,) we put through a startling seven-stage process which ensures that **Solé Water** is the only REVITALISED ready-to-drink water available (to the best of our knowledge.) Solé Water guarantees water that is also free of **negative memory** as, water guru, Dr Emoto discovered water carries the most powerful memory, contains 84 Trace Elements (essential electrolytes) and several other totally unique and exquisite processes ensuring our promise to **REVIVE, RESTORE and RENEW™**.

- Immediately on consumption, Solé Water will get to work physically reviving cells, tissues, organs etc instead of just temporarily quenching your thirst as many other 'waters' only do for a brief period

When you drink energized and structured water, your body is much more efficient at removing toxins and limiting oxidative damage which causes wrinkles. Much of the pain in our bodies can be traced to a shortage of moisture or dehydration. **Solé Water** has the power to reduce the hydration deficit and thus reduce the stress caused by pain. Pure Water excellently enhanced like **Solé Water** = hydration = moisture = life. Dehydration, on the other hand, is the equivalent of death and the destruction of all living things.

In South Africa, it is not compulsory to send bottled water for regular testing or make results public knowledge. **Solé Water** sends its products for monthly testing to Swift Laboratories in Midrand and our outstanding results are immediately uploaded on our website and all our regular customers are sent a copy.
